RECOsystems CHANGER PUNCH 4

electric punching machine for exchangeable punching tools

The RECOsystems CHANGER PUNCH 4 is the perfect punching machine for copyshop or printhouse. What makes the machine so special is its flexibility. The solid punching tools can be exchanged in some seconds. There are punching tools available for plastic binding, wire binding 3:1 and 2:1 as well as for spiral binding. The punching is done via foot switch or sensor, so the work can be done very fast. The machine is also suitable for high quantities.

available punching tools for CHANGER PUNCH 4

- wire comb 3:1; square hole 4x4 mm and round hole 4 mm
- wire comb 3:1 with calendar cut; square 4x4 mm and 4 mm
